Fiber Cleaner Pen

Product Drawing

Product Description

The Fiber Cleaner Pen adopts an innovative ultra-fine fiber brush head and environmentally friendly cleaning solution formula, which can penetrate into the tiny gaps of fiber optic connectors, lenses, and sensitive optical surfaces, quickly and thoroughly removing pollutants such as dust, oil, and fingerprints, ensuring the cleanliness and stable performance of fiber optic components.

Product features

- Using high-quality ultra-fine fiber material, it is soft and does not damage the surface, making it easy to penetrate into gaps and capture and remove tiny dust and stubborn stains.
- Specially designed environmentally friendly cleaning solution, gentle and non corrosive, quickly dissolves stains while protecting the original color and texture of fibers, safe and harmless, suitable for various materials.
- Unique pen shaped design allows for easy release of an appropriate amount of cleaning solution with just one press, eliminating the need for complex steps and enabling quick cleaning anytime, anywhere.
- Suitable for cleaning various types of fiber optic connectors (such as FC, SC, ST, LC, etc.), fiber optic jumpers, optical lenses, and precision electronic equipment, meeting diverse needs.

Application

Widely used in multiple fields such as fiber optic communication, optical instrument maintenance, and precision electronic equipment cleaning.

Technical Specifications

Product Parameters

Project	Technical indicators	
Product name	Fiber Cleaner Pen	
Model	SC	LC
Optical Connector	FC/SC/ST	FC/SC/ST
Type	Cleaning tool	
Classification Color	Green/White
