Pole Band

Product Drawing

Product Description

Pole Band is an auxiliary product designed specifically for the installation of optical cables. The product is made of high-strength materials and can withstand the tension and pressure in various harsh environments, effectively helping users achieve efficient and safe installation of optical cables in various environments, greatly improving the installation efficiency and service life of optical cables.

Product features

- Adjustable design to adapt to different sizes of optical cables and installation environments.
- It has good anti slip performance and effectively prevents the optical cable from slipping or shifting during installation.
- Made of corrosion-resistant and wear-resistant materials, it can be used for a long time in various harsh environments without being easily damaged.

Application

Applied to Fiber Optic Cable installation.

Technical Specifications

Product Parameters

Project	Technical indicators
Product name	Pole Band
Material	Carbon Steel
Surface treatment	Hot-Dip Galvanised
Surface	Burr-free
Color	Silver White
Usage	Electrical Cable Fitting
Type	Adjustable
Size	6-8 7-9 8-10 or customized
